The National First Defenders' Association of Pennsylvania celebrated its annual reunion at Clarksburg, Pa., being the guests of the Postville Fire Department. Forty-one years ago the five companies of First Defenders, unarmed, passed through a mob in Baltimore on their way to Washington. There were 480 soldiers in that band of First Defenders, but there are less than 120 survivors. A committee was appointed to arrange the details for the perpetuation of the First Defenders' Association by electing their sons and daughters members. The organization passed a resolution congratulating William W. Wendt, of Postville, who was a First Defender and whom President Roosevelt has just recommended for brigadier general in the regular army.

Policemen made a raid on the home of Emil Wendt, a Philadelphia & Reading brakeman, of Mahanoy City, and found two wagonloads of stolen goods, valued at over \$500 and consisting of a great variety of wearing apparel, silverware and watches. When the officers entered the house, it is alleged, Mrs. Wendt seized a revolver, but was disarmed before she could do any damage. Most of the goods were identified by J. J. Franey as having been stolen from his store at Shamonsburg. Wendt and his wife were committed to jail.

Frederick Ley, 44 years of Philadelphia, shot herself at the boarding house of her husband, 874 North Fifth street. According to the police, the woman separated from her husband several weeks ago, after twenty-one years of married life. She went to see him, hoping to effect a reconciliation. The two talked over their affairs for a few minutes, but the husband, it is said, was unrelenting. Mrs. Ley drew a pistol and aimed it at her heart. The bullet missed its mark and the wound inflicted was not serious.

The supervisors of Nether Providence Township have placed an assessment of \$20,000 for taxation purposes against the Springfield Water Company's water rights. The supervisors say that the company uses the roads for hauling, and should be made to contribute to keep them in repair. Council for the company has appealed, declaring there is no authority for an assessment of this kind.

Coxe Bros. & Co., Hazelton, have posted notices at their collieries to the effect that hereafter all errors in wage claims must be made by the miners to top each car of coal six inches. Some of the mine workers believe that the Coxe and Markle firms have challenged the union and mean to bring matters to a decision before the expiration of the thirty-day truce declared on March 27.

The remaining link of twelve miles of the Lehigh Valley Traction line between North Wales and Chestnut Hill is likely to be finished by June. This will make feasible a continuous trolley ride from Philadelphia to Slatington, a distance of seventy-six miles for 75 cents. The ride will require about four hours.

Charters were issued at the State Department as follows: The Latrobe Supply Company, Latrobe; capital, \$1,000; The Neshaunt Stone Company, Pittsburg; capital, \$1,000; Dunkirk Coal Company, Pittsburg; capital, \$100,000; The McAuley Automatic Trap Company, Pittsburg; capital, \$5,000.

Nine cows, all the crops and the farming implements were destroyed by a fire which consumed Louis S. Whitcomb's barn at Dierhertown, three miles east of Ambler. Incendiarism is suspected. The horses were rescued. The loss is about \$7,000, covered by insurance.

Walter Strack, aged nine years, of Hazelton, while playing baseball fell and sustained a fracture of the skull. The lad died without regaining consciousness.

The following fourth class postmasters were appointed for Pennsylvania: Buckhorn, Roy, Purcell; Mantel Village, C. H. Montgomery.

A note for \$800 was burned by the Evangelical Congregation of Lewiston at the services Sunday morning.

Christopher Bysiek, a Hungarian miner, tried to board a coal train at the Wyoming Station, Wilkesbarre, and fell between the wheels. He was so badly mangled that he died.

As he alighted from a trolley car in Center Square, Marietta, Charles Johnson was run over and seriously injured. He is suffering from concussion of the brain.

While going home from a sick call Father Stanislaus Spotsanski was held up by burglars who forced him to witness the blowing up of the safe in the postoffice at Hudson.

Arthur Grant, aged 23, was found dead lying in a picnic wagon, at the stables of William Corcoran, West Chester. An investigation showed that he had been choked by his collar button, which was pressed deep into his throat by the peculiar manner in which he was lying.

Two runaway horses took to the Reading Railway tracks, and one mile above Tamqua became imprisoned between the sills of a bridge, where they hung suspended. A wrecking crew released the animals, one of which died.

It is believed that most of the 400 students arrested in Moscow will be sent to Siberia.

COMMERCIAL REVIEW.

General Trade Conditions.

R. G. Dun & Co.'s "Weekly Review of Trade" says: "Good news predominates in the business world, notwithstanding two somewhat serious drawbacks. Weather conditions have been unsatisfactory at many points and still more a handicap is the strife between wage-earner and employer. Manufacturing is exceptionally active in lines not disturbed by strikes, and there is a vigorous movement of goods through regular channels.

"Not only pig iron, but bars, billets and structural shapes are all sold so far ahead that new business is comparatively light. The situation may briefly be summed up in the statement that it is the exception when order books are not filled for full capacity well toward the end of 1902.

"More animation has appeared in the speculative market for staples. Wheat moved within narrow limits, varying a fraction, according to the preponderance of good or bad crop news. Western receipts for the week were 1,222,542 bushels, against 2,068,042 a year ago, and the total for the crop year is gradually falling back to last year's figure. Cotton moved up to the highest point of the season.

"Failures for the week numbered 108 in the United States, against 203 last year and 19 in Canada, against 24 last year."

Correct Dining Table Decoration.

A florist told me the other day that a well-ordered dining table no longer exhibits a great coup d'oeil of flowers. Instead, the embroidery dolly, which is to be up to date and large and square, calls for a tall, slim vase with a few choice roses or some tall-stemmed flowers in the center of the dolly. At each corner of the dolly goes a lower vase of the same style as the taller, with the same flowers in it. Sometimes the vases are low and hold violets or orchids, but they must be alike. This florist predicts for spring and early summer table decoration a great profusion of lily of the valley, which Queen Alexandra has chosen as the coronation flower.—Good Housekeeping.

Idealized Pillows.

The newest and most beautiful cushion covers are made of gathered chiffon. The chiffon is so drawn as to look like flaked foam, and very full quadruple flounces are set at the edge. To shape a cushion like a heart is to invest it with a new appearance. Some of the smartest covers have wreaths of tiny roses or forget-me-nots at the base of the flounces.

In the big shops embroidery motifs are sold, made of lace, at a few cents or dollars, according to their value, a dozen. These applied upon clear muslin make pretty sofa cushions, while others, of course, can be used for collars and dainty lingerie, and look both smart and pretty.—New York Commercial Advertiser.

To Improve a Dark Hall.

A woman who has long found the narrow hall of her house dark and difficult to treat in any way that made the entrance to the residence attractive, has transformed it, to its great improvement, by letting in a mirror from floor to ceiling on one side. This is opposite the parlor door, and the light from that apartment, falling on the mirror, is reflected back into the hall, to its much better lighting, while the apparent size of the little place is greatly increased. The mirror is, of course, unframed, and is fitted in between cornice and baseboard, and finished at the sides with a flat moulding that seems a part of the woodwork. The value of this treatment is not realized until it is tried. Often a blank stretch of wall that seems a hopeless shutting in of space may offer the transforming opportunity. Care must be taken not to overdo the treatment in such a way as to create the effect of a hotel corridor or public hall; but judiciously used under the care of a good architect, the plan is to be commended.—Harper's Bazar.

RECIPES.

Anchovy Toast—The French mode of preparing anchovy toast is as follows: Melt an ounce of butter in a pan and a tablespoonful of anchovy paste; thin it out a little with hot water, add the juice of a lemon; pour over the toast and serve. A better way of preparing it is to spread a thin layer of the paste over the toast and pour over it the milk prepared as for milk toast.

Blackberry Tart—A plain paste made with butter or cream and a little baking powder is much better for fruit pies than the finest puff paste ever made. Use one-third cup of butter to one and one-quarter cups of flour and one-half level teaspoonful of baking powder. Mix with ice water, roll out to fit a perforated tin pie plate and build up the edges slightly. Bake, and fill with fresh blackberries; sprinkle generously with powdered sugar and cover with whipped cream.

Turnip Soup—Peel and slice six white turnips; put them over the fire in two pints of boiling water; add one slice of onion; cook until the turnips are tender; rub them through a strainer into the water in which they were boiled; season with salt, pepper, celery salt; melt two level tablespoonfuls of butter; add two level tablespoonfuls of flour; stir this into the boiling water and stir until thickened; let cool five minutes, then add one cupful of milk.

Sweet Tomato Pickle—One peck of green tomatoes and six large onions, sliced. Sprinkle with one cupful of salt, and let them stand over night. In the morning drain. Add to the tomatoes two quarts of water and one of vinegar. Boil fifteen minutes, then drain again and throw the vinegar and water away. Add to the pickle two pounds of light brown sugar, two quarts of vinegar, two tablespoonfuls of clove, one of allspice, two of mustard, two of cinnamon and one tablespoonful cayenne, or better still, one green pepper cut into thin pieces. Boil fifteen minutes, or until the tomatoes are tender.

LABOR AND INDUSTRY

Chicago street railway men are being organized.

Waukegan, Ill., trades are to have an eight-hour day.

Buffalo building trades have a bright outlook this year.

Muncie, Ind., with 22,000 population, has 37 labor unions.

The New York Amalgamated Painters and Decorators, on and after August 1, will demand \$4 a day for plain painting and \$4.50 for decorative work, including gilding, as minimum wages for an eight-hour day.

The cooks and waiters of Salt Lake City have secured one day's rest in seven through the aid of the arbitration committee of the State Federation.

The compulsory industrial arbitration court of New South Wales, which was recently established in Sydney, is now open.

Boat and shoe workers report that the sale of non-union goods in Illinois has decreased 75 per cent. in the last six months, by reason of the label campaign.

The Clerks' National Union reports 531 local unions, 12 of which were added during the past month. Unions were formed in California, Ohio, Nova Scotia and 17 other States.

HOUSEHOLD MATTERS

The Silver Chest.

Chests of silver are used at the present time more than ever before. The chests are attractive in themselves, made in mahogany, maple and oak, finished with brass on the outside. The most popular chest is the compact, as opposed to the display chest. In the latter the same amount of silver occupies twice the space. The compact chest takes up less room in the house, and is more convenient for putting into safe deposit. The silver is arranged in the bottom and two trays, each compartment having the name of the piece of silver which belongs in it printed in gold upon the velvet.

The Way to Disinfect Books.

If you have an atomizer full fill it with a forty per cent. solution of formaldehyde. Stand the books upright on the end wide open with the leaves separated as much as possible, and spray thoroughly with formaldehyde. If the binding is very delicate and likely to be injured by the moisture procure a tight tin box large enough to hold the book and a saucer filled with formaldehyde. Stand the book upright as described and close the box, leaving it for an hour at least. It is said that one cubic centimetre of formaldehyde to three hundred cubic centimetres of space will thoroughly disinfect any book in fifteen minutes.—Ladies' Home Journal.

Mrs. Sophie Binns, President Young People's Christian Temperance Union, Fruitvale, Bal., Cured of Congestion and Inflammation of the Ovaries by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Eighteen months ago I was a pretty sick woman. I had felt for some months that I gradually grew weaker, but finally I had such severe pains I could hardly stand it. I had taken cold during menstruation and this developed into congestion of the ovaries and inflammation, and I could not bear to walk or stand on my feet. The doctor recommended an operation which I would not hear of. One of my friends advised me to try Lydia E. Pinkham's Vegetable Compound, so I gave it a trial. Can you imagine my feeling when within two months I felt considerably better, my general health was improved, and my pains had entirely disappeared. I kept taking it six weeks more and am now enjoying the best of health, thanks to you. Yours truly, Mrs. SOPHIE BINNS."

\$5000 FORFEIT IF THE ABOVE LETTER IS NOT GENUINE.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or any such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "fractured" feelings, blues, and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once restores such troubles. Refuse to buy any other medicine, for you need the best.

A Matter of Choice.

She Would Not be Without It Now.

Neither would thousands of others. We refer to Vogeler's Curative Compound; it does so much good and seems to reach every form of stomach trouble, that people have found that it is the one true specific. And what are stomach troubles? The easiest answer is that three-quarters of all the diseases and ailments which affect us proceed from one form or another of stomach trouble.

Indigestion is one of the worst and most prevalent forms, but Vogeler's Curative Compound cures indigestion. Here is one instance:

Mr. W. Howell, of 34 Priory Street, Winchester, Col., writes: "I wish to state that my wife has been taking Vogeler's Curative Compound for a long time, and it is the only thing that has done her any real good for indigestion, in fact nothing would induce her to be without a bottle now."

When we stop to seriously consider the fact that this great remedy is made from the formula of one of the most eminent living London physicians, it is no wonder that people who have happily experienced the benefit to be derived from its use, will not now be without it at any cost.
